1. Ivanti Tunnel 4.12.0 - 4.13.0 for macOS Release Notes

July 2026

These are cumulative release notes. If a page does not list a release, then there is no new associated information for that release.

2. Revision history

Date	Revision
July 20, 2026	Updated for Ivanti Tunnel 4.13.0: • Ivanti Tunnel 4.13.0 - Support and compatibility • Ivanti Tunnel 4.13.0 - Resolved issues
January 19, 2026	Updated for Ivanti Tunnel 4.12.0: • New features summary • Ivanti Tunnel 4.12.0 - Support and compatibility

3. About Ivanti Tunnel for macOS

Ivanti Tunnel enables VPN capability on macOS devices. Ivanti Tunnel interacts with the Unified Endpoint Management (UEM) platform, Standalone Sentry, and Access to secure access to enterprise resources from outside the enterprise network. The enterprise resource can be on premise or in the cloud. The UEM platforms are: Ivanti EPMM and Ivanti Neurons for MDM.

4. New features summary

These are cumulative release notes. If a release does not appear in this section, then there were no associated new features and enhancements.

5. Support and compatibility

These are cumulative release notes. If a release does not appear in this section, then the support and compatibility values from the nearest listed older release apply to the missing release.

Ivanti Tunnel 4.13.0 - Support and compatibility

Supported component versions

The following table provides the component versions that are supported and compatible.

Component	Supported Versions	Compatible Versions
Ivanti EPMM	12.10.0.0	12.9.0.1, 12.8.0.3
Ivanti Neurons for MDM	125	Not Applicable as only the latest version is available to all customers. The latest version is available to customers.
Standalone Sentry	10.7.1	10.6.2, 10.6.1
Access	69	Not Applicable as the latest version is available to customers.

Supported device platforms

The following table provides the macOS device platform versions that are supported and compatible.

Device OS	Supported Versions	Compatible Versions
macOS	26.x, 15.x & 14.x	N/A

Ivanti Tunnel 4.12.0 - Support and compatibility

Supported component versions

The following table provides the component versions that are supported and compatible.

Device OS	Supported Versions	Compatible Versions
macOS	26.x, 15.x & 14.x	N/A

Ivanti end of sale and support policy

See the **End of Sale and Support Policy**.

6. Resolved issues

These are cumulative release notes. If a release does not appear in this section, then there were no associated new resolved issues.

Ivanti Tunnel 4.13.0 - Resolved issues

- 1879836: Previously, when a Mac device entered sleep mode, the Tunnel connection was not fully disconnected and remained in a running state after wake-up. This issue is now fixed by ensuring the Tunnel connection closes when the device enters sleep mode, allowing it to start in a fresh state upon wake-up.

7. Known issues

These are cumulative release notes. If a release does not appear in this section, then there were no associated new known issues.

8. Limitations

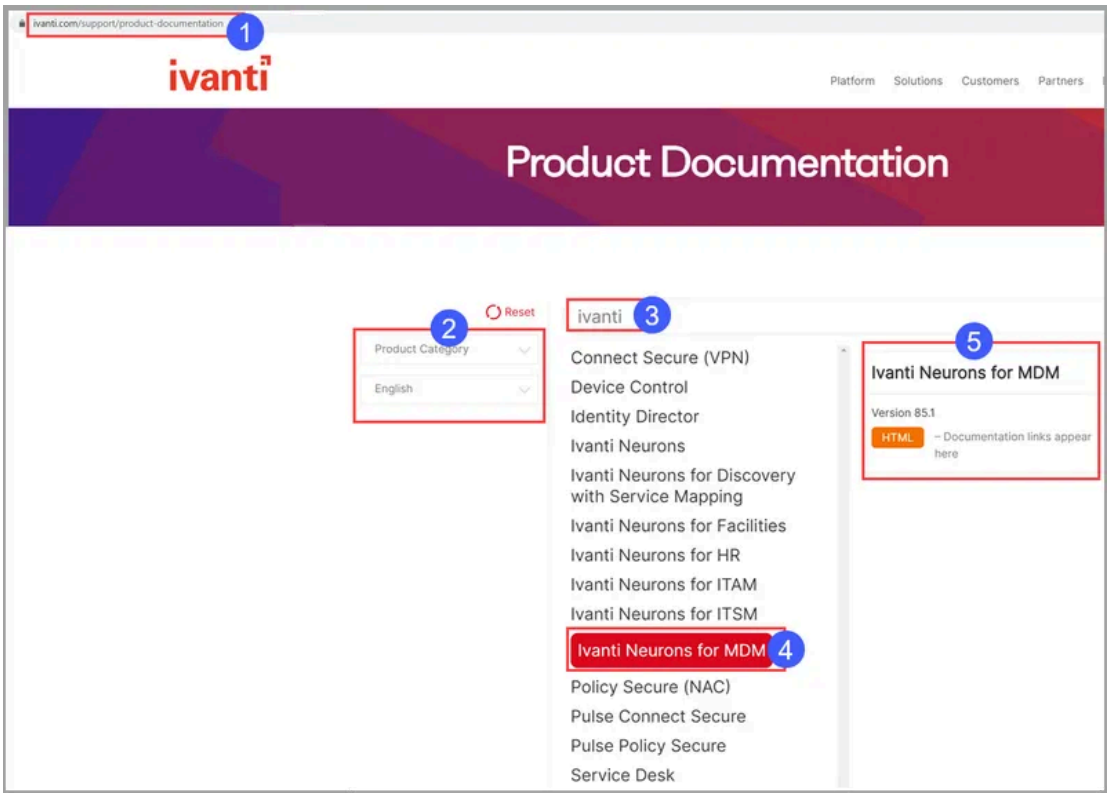

These are cumulative release notes. If a release does not appear in this section, then there were no associated new limitations.

9. Documentation resources

Product documentation is available on the **Ivanti documentation website**. You can access Ivanti Tunnel documentation directly at **this link.**

To use the documentation:

1. Navigate to the **Ivanti documentation website**. For example:

1. Optionally, select a product category and language.
2. Enter a search term.
3. Select a product from the results.
4. Click the associated documentation links.

> If you have an Ivanti Neurons for MDM deployment, the Ivanti Neurons for MDM Guide is also available from your instance of Ivanti Neurons for MDM through the Help link in the user interface. See **Accessing online help**.
