

OVERVIEW

These release notes provide a list of changes to the Carbon DLS API, including new features. In this release, we have added the following feature(s):

- **Created At (*created_at*), Updated At (*updated_at*), and Finished At (*finished_at*) are now displayed on all Printed Parts (GET /printed_parts) responses**

You can find the entire process from generating an API key to testing your JWT token on our GitHub repository located at <https://github.com/carbon3d/carbon3d-api>.

The Carbon DLS API is provided as an OpenAPI spec ([api.yaml](#)). This spec allows you to generate client libraries in many languages. A list of supported OpenAPI generators is available [here](#).

If you have any questions and/or feedback, please contact api-list@carbon3d.com.

NEW FEATURES

1. **Created At (*created_at*), Updated At (*updated_at*), and Finished At (*finished_at*) are now displayed on all Printed Parts (GET /printed_parts) responses (CLP-21380)**

When querying printed parts, the following fields have been added: created at, updated at, and finished at. Information on parts that have not been printed will return null for “finished at” until they have been printed.

KNOWN ISSUES

Please reach out to our API support group at api-list@carbon3d.com or file issues on our GitHub repository.
